

What will we be learning?

- Identify, name and label basic parts of the human body.
- Compare and describe differences in our own features – eyes, hair, skin etc.
- Learn about eyes and sight.
- Learn about ears and hearing.
- Explore the tongue and taste.
- Explore the sense of touch.
- Discover how the nose smells.

Key vocabulary

- **Observe:** use our senses to gather information and collect data from the natural world.
- **Describe:** write in words or give someone a verbal explanation of your observations.
- **Record:** put down findings in writing or creating a permanent way to show your findings.
- **Compare:** measure or note the similarities and differences between things that are being observed.
- **Mammals:** mammals are animals that breathe air, grow hair or fur and feed on their mother’s milk as a baby.
- **Sense:** any of the 5 ways to experience or understand the world around you.
- **Human body:** The human body comes in different shapes and sizes but are made from the same parts that do the same job.
- **Human features:** Parts of the body that can be different such as eyes, hair and skin.
